DAVIDSON COLLEGE.

Commencement Exercises ... Beautiful Place-Historic Institution--Its Long and Useful Career--The Faculty--Public Exercises -- The Address -- The Crowd--Personal.

Correspondence of the News.

DAVIDSON, COLLEGE, June 26. We arrived at Davidson College this morning at 7:30 and found this community all astir in the midst of the commencement exercises.

A BEAUTIFUL PLACE.

This is quite a delightful place. The college buildings are located in a large, beautiful shady campus and consist of the main building, in which is a spacious chapel, library, museum and domitories for the students; the society halls which are nicely furnished and well arranged; the stewards house and the old chapel in which services are now held. There are also several buildings in the campus containing rooms for the young mer. Taken all together the bu I lings present a fine appearance and seem to be conveniently arranged and are sufficiently commodious for the present necessities of the school.

EARLY HISTORY.

M. M.

The corner stone of the principal edifice of Davidson College was laid in 1837. The tract of land on which it is situated was given by William Lee Davidson, Esq, son of the illustrious patriot of the same name. The instituion was at first a manual labor school, but this feature was soon changed and abandoned. Rev. Dr. Morrison, who was more zealous than perhaps any other man in projecting the enterprise was the first President. He is still living. Dr. Morrison was succeeded by Rev. Dr. Samuel Williamson in 1841. in 1854 Rev. Dr. Drury Lacy succeeded Dr. Williamson and in 1860 Dr. Lacy was succeeded by Rev. Dr. J. L. Kirkpatrick, who remained as President until 1866 when Rev. Dr. G. Wilson McPhail succeeded him. After the death of Dr. McPhail, the Trustees adopted the plan of having a Chairman of the Faculty. Prof. J. R. Blake, the senior Professor, filled the office of Chairman until last commencement, when Rev. A. D. Hepburn D. D. was elected President which place he now Thus it will be seen that the College has had a long term of service and has had some able men to steer it. It has, and still accomplishes much

DENOMINATIONAL RELATION.

Davidson College was at first under the control of Concord Presbytery of the Presbyterian church-several other Presbyteries soon joined with Concord in its control, until now it is un ler the control of the various Presbyteries in the four States of N. Carolina, S. Carolina, Georgia and Florida. So it is emphatically a Presbyterian school yet, we think, from what we have seen that no undue sectarian influence is brought to bear upon the students

ENDOWMENTS ETC. Before the building was erected about \$30,000 was raised in donations and scholarships to be applied to its erection and in 1854 Maxwell Chambers, Esq., of Salisbury, N. C. bequeathed \$250,000, to the endowment of the College. This enabled the Trustees to erect new buildings and to add several new Professorships, and to furnish the college with all nec-essary apparatus, cabinets, &c. A great deal of this endowment was swept away by the late war, enough was left, however, to reopen the college at the close of the war, since which time the

college has been successfully carrying forward its great work. SOME STATISTICS.

The first young men graduated from the college in 1840. Of those who have graduated since the war, one-haif have entered or are preparing to enter the ministry; nine-elevenths of the graduates for the same period have been members of some branch of the christian church. Last year, one-third of the students were looking forward to the ministry. For most of the above facts we are indebted to an article written by Rev. H. H. Banks, and published in the March number of the South Atlantic.

THE FACULTY.

The Faculty is composed of Dr. Hepburn, the President, and five Professors, as follows: Professors J. R. Blake, W J. Martin, J. F. Latimer, W. W. Carson and J. R. Sampson. Of this number, Dr. Hepburn and Prof. Latimer are Presbyterian ministers, the others are all laymen in the Presbyterian church. It is one of the ablest S ate. There is nothing fulsome in the above statement.

The Trustees met this morning, from which meeting we gleaned the follow-ing facts. The College now has an end wment fund of \$83,000, which yields an annual income of \$6,000, and the income from the tuition is about \$6,000, which gives the institution an annua income of \$12,000. The College has graduated 600 young men, and has given nearly one hundred thousand dollars in gratuitous tuition. Rev. Luther McKinnon was elected President of the Board of Trustees. The Presbyterian church of Salisbury, North Carolina, made application to-day for a scholarship of \$3,000, which was granted, and this will add \$3,000 to the endowment

THE PUBLIC EXERCISES.

At 11 a. m. to-day, a procession, com posed of the Faculty. Trustees and students, preceded by Hon. Gustavus Orr, Commissioner of Education of the State of Georgia, and the Orator of the day, was formed in front of the old chapel and, led by the Statesville Cornet Band, marched to the main building and into the new chapel. The Trustees and Faculty took seats upon the rosfrum, and after music by the band and prayer by Rev. D. D. McBride, President Hepburn introduced Hon. G. J.

A SYNOPSIS OF HIS ADDRESS.

The speaker opened his address by thanking the young men for the honor conferred on him by the invitation to which he was here to respond. He then paid a tribute to North Carolina, announcing that his father was a native of Mecklenburg county, and hence he was familiar with the early history of this State. He announced as his theme,

THE CHOICE OF A PROFESSION. He announced that he would depart

in which we could be the most useful and to which we had an especial adaptation. Men are called to farm, to teach and to engage in commercial or mechanical life just as men are called to preach. Strong love for and peculiar adaptation to any profession was a strong and clear indication of a call to that profession. This principal is illustrated in the vegetable and animal world. The speaker then took up each of them, and finally closed with a beautiful quotation from Bryant's Thanatopsis. The speaker did not advance any new thoughts but impressed the old thoughts generally advanced on his theme. The address was very practi-cal and plain and no doubt will accomplish good.

THE CROWD.

The crowd to-day was not very large. but they say here it is as large as they usually have on Wednesday. The audience to-morrow promises to be very large. Many of the Presbyterian min-

isters of the State are here.

The mail leaves now in a few minutes, and I shall have to embrace the remainder of to-day's exercises in my letter to-morrow. We are to have the address before the Alumni Association this afternoon, and the Society Anniversaries to-night, and the exercises of Commencement day on to-morrow; a report of all of which you shall have.

PERSONAL. We noticed on the rostrum to-day Rev. Dr. Brockette, of Charlotte, N. C.; Rev. A. H. Crawford, of Mocksville, N. C.; Rev. J. C. Alexander, of Guilford Co., N. C.; Rev. Dr. Smith, of Greensboro, N. C.; Rev. Dr. Smith, of Greens-boro, N. C.; Rev. E. H. Harding, of Charlotte, N. C.; D. A. Davis, Esq., of Shisbury, N. C.; Capt. A. White, of Sumter, S. C.; Rev. A. A. Correspondence of the News. RUTHERFORDTON, June 25. At 11 o'clock last night, the alarm of fire was given in our village, and the many citzens who rushed to the rescue found it to be a barn on the lot of Mr. H. D. Currin only a short distance from the place where a livery stable owned by the same man was burned two weeks ago. The flames had gained such headway before the villagers gathered, as to render it impossible to check them, until they had consumed the stables, cribs, sheds etc., adjoining the the barn. No stock of any kind perished in the flames. The opinion enter-tained by many, with regard to the first burning, was confirmed by the latter, viz: that it was the work of an

Correspondence of the News.

FREMONT, June 26. After a long and dusty ride, I arrived at this place early this morning. This village, situated on the Wilmington and Weldon Railroad, has the appearance of thrift and energy.

BUSINESS OF THE PLACE.

There are seven stores that seem to be doing a safe business, but the promeock & Edgerton, Geo. Best and J. K. Smith & Son-all have a large, successful business. Mr. A. J. Harrell owns and runs a large flouring mill in the suburbs of the town. He has attached to his flouring and grist mill, a carding machine, &c. The "Free Will Baptist is published here, and edited by Mr. Levi Johnson.

THE DISTRICT CONFERENCE.

But I started out to report the proceedings of the New Berne District Conference, which convened to-day at Methodist church in this place, with the Rev. Wm. Closs, D. D., in the chair. Rev. N. M. Jurney was elected ready for business.

It may be a matter of information to some of your readers to give the leading characteristics of a Methodist District Conference. If I mistake not, it was in 1866, at New Orleans, the General Conference of the M. E. Church South, inaugurated this conference. There are several conferences used in the practical workings of Methodism, each having a specific work. For instance: There is only one conference that can make a preacher, and that one is the quarterly conference.

THEIR LEADING FEATURES.

The leading feature of a di a rict conference is to examine and look into the general interest of the churchspiritual and financial, the Sunday school interest, the cause of missions, the condition of houses of worship. In short, it is to promote the Redeemer's Kingdom. Its character is in the main advisory—as it performs but one act which is strictly legal—that is to elect delegates to the ensuing annual conference which delegates quadrennially elect the lay delegates to the General Con-ference, which is the only law-making book. power in the Methodist Episcopal Church South.

THE MORNING SESSION. The morning session was chiefly consumed in organizing. Nearly all of the ministers and lay delegates will arrive

by to-night's train. BISHOP DOGGETT EXPECTED.

Dr. Closs stated to the Conference that Bishop D. S. Doggett, of Richmond, Va., was expected on the evening train. The intimacy and friendship that has existed between Dr. Closs and New York Times.

Gov. Vance and some of his henchmen year have to levy a tax, say \$12,500 this year to meet this debt, now due. Gen. Sherman had occasion to visit Raleigh in an official capacity and while there removed certain records and papers of a public certain records and papers of a public character. These documents are now in the keeping of the War Department at Washington, and for some reason best known to themselves a number of the "native and best," represented by the State Assembly, are now exceedingly anxious to regain possession of them. Secretary McCrary objects to part with them; however, and for the very good reasons that they may contain evidence which will be effectual in defeating

unjust claims against the Treasury. This action is so distasteful to the principal Democratic newspaper in the State that, even in these days of reconstruction and universal good will, it has and the taste to speak of the Secretary "as an inselent creature of a national ad-ministration which is the corrupt pro-

THE CLEAVELAND MINERAL SPRINGS.

Pronounced by Many the Finest Water in the State.

These mineral waters have been used for a long time in our county as one of the most reliable agencies for the restorrenewed health and vigor to follow know in eternity.

There are two springs known as the chronic dysentery and liver complaint, have been fully cured by the use of the water at Mr. Patterson's springs.

Any amount of reliable certificates could be had by Mr. P. in proof of the above assertion. We do not hesitate in declaring these springs as among the best in the land for their medicinal and remedial effects. And as to the table fare, this is known by everybody who goes there, as the very best the land can afford. Everything is neat, cleanly, and the cooking is decidedly superior. Mrs. Patterson, one of the kindest and best ladies known in the country, gives her personal superintendence to the culinary department, while Mr. Patterson, an ccommodating and intelligent gentleman, looks after the general welfare of his guests. Besides all this, it is the cheapest watering place in the State. So go ye suffering ones. Come to these fountains of health, where cool breezes, spreading oaks, delightful prospects, inging birds and peaceful scenes, soothe the shattered nerves to rest, invite gentle slumbers, whet up languid appetite and make the pallid cheeks

It is also declared, with much vehemence, that the people 11 o'clock in the large and handsome of the South "are determined not to submit to negro domination," and that the nomination of a colored man for

office, by colored men, is conceived in "a spirit of hellishness." We should infer from this that the Democrats of North Carolina feel deeply on the subject of allowing black men to noninate black men for official

THE POTTER COMMITTEE. William E. Chandler on the Stand.

WASHINGTON, June 29.—The Potter Committee met at 11. Ex-Marshal Pitkin was recalled. After making a number of corrections in his testimony number of corrections in his testimony of Tuesday, he was interrogated at length with reference to the statements made in his testiment relative to the method of employing deputy marshals in Louisians. Potter then reviewed the testimony of Pitkin, eliciting various replies from the witness for the purpose of placing in the minutes a more detailed statement of affairs in Louisiana during the electoral count. Nothing of note, however, being de-Nothing of note, however, being develored. Butler then examined the witness as to the probabilities of the Packard government being able to sustain itself in the event of recognition by the administration. The witness replied that he always believed in the Packard Legislature, and was of the opinion that the Packard government could have sustained itself within three weeks after the recognition, without the aid of Fed-

eral troops.

The witness narrated a statement made to him by Governor A J. Swasey, of a conference held by members of the Packard Legislature and members of the McVeigh commission immediately preceding the withdrawal of the troops, and the recognition of the Nicholls government. The examination continued bearing upon the acts of the McVeigh commission relationships the street of the McVeigh commission without bearing the street of the McVeigh commission without the street of the McVeigh commission without the street of the McVeigh commission without the street of the McVeigh commission immediately preceding the McVeigh commission immediately preceding the McVeigh commission immediately preceding the withdrawal of the troops, and the recognition of the Nicholls government. Veigh commission without having developed anything new, when Butler requested that Packard be subpensed

before leaving the country.

Hiscock said the minority of the committee were disposed to accept the testimony of the witness now on the stand as regards affairs in Louisiana and suggested that by calling additional witnesses to verify statements already made, would only accumulate evidence and delay the progress of the investigation, whereupon Butler remarked it was his idea to probe the fraud which had been perpetrated, to the bottom, without considering who it might affect. He alone was responsible for his actions, and that if the Committee did not intend to establish the entire facts of the tend to establish the entire facts of the case they may as well stop at once. Hiscock and Cox both, expressed no opposition to the calling of further witnesses for any reason, excepting that it accumulated testimony similar to what was already in and which they were willing to accept without verification. During the discussion, MacMahon remarked that the question of going into the investigation of the McVeagh commission, had been decided in secret session, and he had voted for it upon the grounds of General Butler's having ingrounds of General Butler's having informed the Committee while in secret entered into whereby the fraudulent count of the votes of Louisiana had been made effectual, and that he could prove it. Butler said that the only question at issue was, should or should not Governor Packard be invited to appear before the committee before he eaves the country to fulfill his duties

abroad. Potter suggested that the question was one which should be determined in secret session. Butler thereupon said that the trouble with secret sessions are "everything that secures therin is not kept secret and as can never eradicate those evils which far as I am concerned the doors should children fall heir to, though much can be done to temper and moderate them. remain wide open." Butler referred to the statement just made by McMahon in regard to an agreement having been made to make the fraudulent count of Louisiana effectual. The examination was resumed and witness in answer to Butlers inquiries whether he had had conversations with Hawley and Harlan before their return to Washington and after Nicholsiwas recognized. They said that when they arrived at Washington they would see Hayes and arrange to have all the leading Republicans who had come to the front of the work in Louisiana taken care of. This he informed Butler, did not include Anderson.

After a secret session and recess Roger C. Glasscock proprietors of a restaurant in this city testified that Mrs. Jenks took her meals at his house, at dinner one day she remarked Secretary Sherman had insulted her, and if he did not look out she would make it hot for him. She informed the witness that she had a document from Sherman to Weber. Wm. E. Chandler was swern and examined by Springer. He visited Florida shortly after the Presidential election and met Gov. Noyes in Talahassis, and conversed with him regarding the election at this point. Chandler stated that he had no rec

lection of any conversation with McLin in which Gov. Noyes was reported by McLin to have said that he was authorized to say he (McLin) would be taken care of, and does not know whether Mr. Wallace or Gov. Noyes made any such statements. He did not hear that Gov. Noyes went to Florids as the direct agent of Gov. Hayes; did not hear that if Florida went for Hayes that McLin or other members of the returning board would be taken care of by the administration. He did not see Governor Hayes on his (Chandler's) trip to Florids. Had communicated with Captain Lee, secretary of Presi-dent Hayes, by cipher telegram, the substance of which was to send Stanley Matthews and others of high character that things looked favorable. Matthews however, did not come. Witness did not know why. Another cipher tele-gram dated Taliahassie, Nov. 18th, substantially set forth that the State looked good for about 25 majority, and that \$5,000 must be sent to Philadelphia in order that he (Chandler) could draw upon it. Gave a detailed state ment of duties performed by Governor Noyes while in Florida, which he said were entirely in a legal capacity. In answering a question by Butler whether there were any appointments made through the instance of Governor Noyes of gentlemen prominent in the Florida election. Witness said I dare say Governor Noyes recommended for places either by letter or orally, a number of persons. I know I did so myself. Butler requestmade on either his or Governor Noyes'

being informed by the witness that he should not do so without he was ready to abandon his case, Noyes abandoned to abandon his case, Noyes abandoned the idea. It was generally understood that Noyes was the direct representative of Governor Hayes, and it was intimated that the latter intended to provide for the friends of the party. The witness gave an illustration of the manner in which General Barlow was transferred from the position of counsel of Alaucha county at his (witness) instance, the effect of which was that after having expressed his opinion of matter, it was changed within a few hours satisfactory to him and his friends. He received a letter of recommendation to the Secretary of the Treasury from Noyes, but never used it, thinking it would be rather cool. The Chairman requested the witness to produce the letter to-morrow, and the Committee adjourned.

Democratic Convention-Nominations for Legislature and County Offices.

Correspondence of the News. YANCEYVILLE, June 25.
The Democratic Convention which assembled in the Court House in Yanceyville to day was large, enthusiastic and harmonious, long and interesting speeches from Messrs. Geo. Williams and Giles Mebane. After which Mr. Wm. Paylor was called to the chair.

NOMINATIONS. The following named gentleman were nominated for the Senate—Col. George

For the House of Representatives-John B Smith and H. A. Cobb. Clerk of Superior Court-John H.

Kerr.
Register of Deeds—Thos. J. Brown.
Sheriff—J. C. Griffith. Coroner-Dr. J. L. Gunn.

Surveyor-J. A. Williamson. USELESS OFFICERS ABOLISED. The Caswell county, Justices of the Peace have abolished the office of Treasurer in this county.

A. E. Henderson of Yanceyville was appointed chairman of the County Democratic Executive committee.

Appointed delegates to represent the county in the Congressional Con-

vention. SENATORIAL MEETING. The Delegates will meet at Prospect Hill on next Saturday June 29th from the three counties Caswell, Person and Orange to make a final nomination of senators. There are a good many inlependants for different offices in this

county. TRINITY NORMAL S'HOOL Its Success and Attractions.

TRINITY COLLEGE, June 26. The normal school at this place is fast increasing, every day brings more and more attendants. There is a goodly number of representatives from our neighboring towns, of High Point and Bush Hill, the most of these are young ladies and young men preparing teach, the coming generation. There is ample amusements for those who may attend this normal school here this

summer, several croquet sets are purchased for this purpose.

Trinity is a very desirable summer resort for people who wish to resort to some quiet, cheap town in the central part of North Carolina, this will be a favorable place for such persons. Board can be had here from \$1.50 to \$3.50

per week. There is a mineral spring near the college which has been tested and found to possess mineral of a superior quality for the restoration of health, it has proved to be very effectual in several

We are glad to know that there are so many men of experience now at-tending and taking such an active part in our normal school, they discuss and decide all points arising from school government, &c.

The school is called every day at 8 o'clock p. m., and dismissed at 11:30 a.

m. During the morning session several recitations are heard, these are all conducted by men of long experience and cultivated minds, these recitations are very comprehensive and instructive.
The regular studies of the normal school are English Grammar, penmanship, reading, vocal music, geography, arithmetic, object teaching and spelling. Special classes may be formed in any of

the departments that are taught in the regular college classes.

Kindergarten will become instituted in our Normal on the 10th of July, by Mrs. Pollock, of Washington City.

This lady is said to be one of the best Kindergarten teachers in the Union. We think that Dr. Craven is a man who can conduct a Normal school with as much success as he does everything else he attempts. We are glad to see so

many, but we are expecting more by

every train. Among the chief things of the Nor-mal, is discussing the character a teacher should have who wishes to teach the coming generation. Every evening immediately before the school closes, Dr. Craven delivers

a short lecture, full of instruction and good advice to young teachers.

The people who attend this Normal have ample access to both the libraries free of charge. The gymnastic exercises are carried on here during the Normal for the health of the pupils.

ATLANTIC BAILBOAD. No Meeting of Stockholders at

Special Dispatch to the News. BEAUFORT, June 27. The Atlantic and North Carolina Railroad meeting adjourned, owing to the State not being represented, without permanent organization. Judge Manly, the State proxy, stated that under instructions from the Governor, he should not take part in the prod ings. The cause of these instruc ings. The cause of these instructions was that Major Hughes and others had been enjoined from veting their stock, which the opposition claimed had been manipulated, while they, the opposition were at liberty to vote theirs, which had likewise been split up, and that the major had not had time to file an injunction preventing them from doing so. Judge Manly added that the State had no objection to the enquiry, but desired it, and that a uniform rule for all might be established.

WILLIAM B. FOWLER.

THE New York Times, having become a careful reader of the News, has had its attention arrested by the correspondence between Governor Vance and Secretary McCrary, and indulges some criticisms thereon, in which the News comes in for a share, by quotation. It would appear from a pavagraph reproduced from the Times that the right of the General Government to withhold the executive letter books of North Carolina is derived from the fact that North Carolina was not a sovereign State at the time the books were captured. But she was. By all acts of Congress and proclamations of the President she was a State of the Union in rebellion, and she was never considered out of the Union, or treated as such until the passage of the Reconstruction laws of Congress. And these laws have never stood the constitutional test and could not. The State of North Carolina is a soyereign State, bas, of right, been one for the entire period of the sisterhood of States, and is just as much entitled to her official records as the State of New

The Bank Failure at Greens.

The correspondent of the News has already by telegraph and mail, given sufficient particulars regarding the failare of Wilson and Shober, bankers and manufacturers, to have assured the pub lie that it was one of those pecuniary reverses which could not have been prevented in these times of business depression and monetary distress.

Asking suspension of judgment on the part of the public, and declaring that not a suspicion tainting the reputation. of the gentlemen had been heard, th News correspondent set the matter of this failure in a light not to affect the standing and character of Wilson and Shober in the public estimation, and it is gratifying to have other public endorsement of high authority coming from Greensboro, for the name of the gentlemen involved are highly connected in the State, and they sustain re- priated twenty thousand dollars for the proven other than hovest, fair dealing, Normal school for the education of Buyer of Country Produce.

It ought to exalt the pride of North Carolina in her people, when even out of the crucible of business misfortune comes the refined honor of her sons.

The Color Line.

The New York Times, knowing bet ter itself, would, for partisan reasons, have it appear North that the Demograts of North Carolina propose to draw the color line to the exclusion of the colored people from participation in the poitical establishments of the State.

The Times may, but the Northern people of Radical proclivities do not understand the people of this State. They have no conception of the relations that exist between the two races, no can they appreciate the perpetual peace, barmony and good feeling that universally exists between the white and black people of North Carolina. They have not learned how highly liberty, law and the rights of the citizen are prized down here among this plain. unpretending folk; and appreciating these blessings for themselves, the white people know how to accord and guarantee them to others, and respect the weaker and inferior race in the possession and enjoyment of all their rights as citizens of a common

And failing to appreciate these things, they of the Radical North cannot understand how a people who opposed the investment of the colored people with the political privileges they now enjoy, can occupy the position of sustaining and guaranteeing those rights to the full letter of the law. They view it that we must live in constant hostility to the reconstruction measures; that we pass our time in brooding over the past -live only in the past-hence, whenever a Southern man enters upon the discussion of any political subject in which the colored man comes up for consideration, his language is tortured

into open hostility to that race. The News, as a representative of North Carolina Democracy, draws no ine of color. The party draws no line of color. The State government, which is Democratic, makes no distinction between the races to the prejudice of the colored people. On the contrary, it has most highly favored them on every occasion when it was deemed proper to throw the broad shield of the State over them for their protection and advancement. In the public schools, though the white people pay the taxes, not a dollar difference is made in the pro rata distribution. They have the equal benefits of the Insane and Deaf and Dumb and Blind Institutions. And, at the instance of Governor Vance, the last Legislature appro-

you must and shall be protected. But it does not contemplate seating them in judicial positions, and must rebuke them if they should attempt to thrust ignorance and incompetency in these high places. When it is proposed to give to the Judiciary of North Carolina an ignorant and incompetent negro Solicitor, the Times must be prepared for a strong protest from the North Carolina Democracy. And before it too vigorously espouses the cause of the negro solicitorship, it should ascertain the sentiment of the colored people themselves on the subject; and fi it has been as constant a reader of the News as it might be with profit, it has already found that the colored people do not approve the nomination which the News so emphatically condemned in the article from which the Times has

The Negro Solicitor.

quoted.

After the expressions of disfavor with which the nomination of an utterly incompetent negro to be Solicitor has been received, without regard to party lines, the News ventures to quote the following from a paper called the Raleigh Register, which styles itself the official organ of the United States for North Carolina, and the Censing with them in their misfortune, a tral organ of the Republican party in misfortune which, in the present case, the State, which honors the paper

"The Republican Convention which as the Republican candidate for Solicitor of the 2d Judicial District.

"Collins was born in Norfolk, Virginia, on the 11th of November, 1849, He was educated at Lincoln University Pennsylvania, and graduated at this Institution. He read law under Mr. W. P. Solomon, of Halifax, and was licensed by the Supreme Court to practice law at June term, 1874. 'Mr. Collins possesses the confidence

and esteem of all of the people of Halifax, and we doubt not that he will make an acceptable Solicitor. He is a colored man of retiring and modest disposition. He will bring to the office an earnest desire to discharge the duties of Solicitor faithfully and impartially-prosecuting those whom he believes to be guilty and protecting the innocent."

Such stuff as this is well calculated to nauseate the public, and there is not a doubt but it has the effect to disgust every decent person in the State to see ignorance and incompetency thus chamioned by an organ of the pretentious Republican party. What a man thinks himself who thus engages in the work of hoisting a notoriously incompetent iegro into the high and responsible judicial position of Solicitor one may never know, but such prostitution must be at a high price.

These things are put on record that the people of North Carolina may properly appreciate the peculiar product of the Republican party in the days of its degeneracy, and that decent, intelligent men of that party, both white and Imperishable Pragrane. black, may fully realize the character of the company they are keeping. If this paper referred to is an expenent of the Republican party in the State, and this is Republicanism of the genuine stalwart order, the white people of North Carolina, and a large preportion of the colored will not be slow to put upon it the seal of their final condemnation and contempt.

Scientific Visitors to Western THE EUROPEAN CONGRESS. Carolina.

Through the influence of Professor Kerr, State Geologist, the Rev. Dr. Hall and family of Brooklyn are on their way to Western North Carolina to spend the summer. The Doctor's family contemplate remaining in Ashe-Prospecting in the mountains of the Old North State.

Professor Kerr has also induced the

following tourists, scientists, and gentlemen seeking investments to visit our magnificent Western country for the purposes indicated.

Professor Jordan in charge of the Sur-

mer School of Sciences, of Cincincati, will spend several months in the mountains, collecting specimens of natural history. There will be a number of students accompanying Prof. Jordan

on this trip.
Professor T. W. Clark, Chemist will leave Cincinnati July 2nd for a tour in the mountains. He will take with him The Rou instruments for observation and measurements, and will join Professor Kern in his usual summer prospecting tour for collecting specimens of mineralogy ing several days in the Geological Museum, inspecting the mineral speci-mens, preparatory to visiting the vari-cus gold mines of North Carolina, in he interest of Northern capitalists. Mr. Spang a prominent banker of Alle ghany, Penn. has just completed a month's trip to Mitchell and adjoining counties, exploring and hunting, and "Bonny Kate," is on sale at the book-

expresses himself as greatly pleased with his visit. One of the editors of the Southern Guide, Washington, D. C., will join Professor Kerr in his contemplated Western mountain trip, to investigate personally the mineralogical resources of the State, with a view to investing

Northern capital. A gentleman of Alexandria, Virginia, also proposes to make a tour of observation and inspection, looking to in vestment.

Felouy Disabilities. In the article "Registration and its duties" which appeared in yesterday's News, no time was specified from which persons convicted of felonies and infamous crimes were debared from voting; the statute says those only are ineligible who have committed such crimes since 1st of January 1877. To do away with any misapprehension which may have been created, so much of Section 10, Chapter 275 of the laws of 1876-7 as re lates to the Matter is given below. Section 10 of the act, reads: "The

llowing class of persons shall not be allowed to register or vote in this State, to wit: * * Third, persons who, upon conviction or confession in open court, shall have been adjudged guilty of felony or other crime, infamous by the laws of the State; committed after the first day of January 1877, unless they shall have been legally restored to the rights of citizenships in the manner prescribed by law."

A Modern Miracle. It has long been stated as a scientific proposition by medical men that a third stroke of paralysis is necessarily fatal. What then shall be said of John Appell, of North Banford, Conn., who had tweive, and who is today a strong vigorous man? The ph-nomena is ascribed by Mr. Appell to his constant application of Giles' Liniment Iodide Ammonia.

A Secretion that Contaminates the Blood.

When the bile is diverted from its proper channels, into the blood, which is always the case in liver complaints, it ceases to be a healthy seer tion, and becomes a poison. Its abnermal presence in the circulation and st mach is indicated by the surfusion of the skin with a hideous saffron tinge, by head; ceints 21: sales 31: exports coastwing the surfusion of the skin with a hideous saffron tinge, by head; st mach is indicated by the suffusion of the skin with a hideous saffron tinge, by head-aches, vertigo, nausea, palu in the right side and under the right shoulder blade by indigestion, obstruction of the boweis, and other minor symptoms. Order may be substituted for this state of chaos, and further bodily evil averted by using the beneficent alterative and tonic, Hosteter's Stomach Ritters, which, by relaxing the boweis, promotes the escape from the circulation of billious impurities, besides rendering the action of the liver regular, and removing every race of dyspepsia. This pleasant and purely vegetable anti-billous medicine is not only infinitely more effective than any form of more cury, but is on account of its freedom from hurtful properties, infinitely to be preferred to that poisonous drug.
